

Community Organisations: fundraising services

Fundraising Strategy	developing your organisation's 'road map' for a successful fundraising programme
Case for Support development	drafting your 'case' for funding applications, proposals and fundraising communications
Finding the Funds	specialist funding research service
Grant Applications	'payment by results' bid writing service
'In house' training	fundraising training for your organisation and staff
'On Call' Fundraising Advice	online and telephone fundraising advice service

Our approach

Our starting point is to understand your organisation's aims, aspirations and funding requirements.

We'll ask you to think about the key questions prospective funders will ask:

- What benefits does your organisation bring to your local community and society?
- Why your organisation? 'What are your strengths, expertise, accreditations and achievements?'
- Why do you need funding - for what and how much?
- What positive impact will this funding deliver for your community?

We'll then work with you to develop a tailored programme of fundraising support and advice according to your needs. This may include:

- ✓ Developing your organisation's 'case for support' for funding
- ✓ Identifying potential sources of funding
- ✓ Exploring the most effective ways to engage donors and funders and inspire them to support your organisation
- ✓ Producing your organisation's fundraising plan and advising on its implementation
- ✓ Developing a programme of funding applications and proposals
- ✓ 'In house' fundraising training for your staff
- ✓ Reviewing progress to ensure your fundraising is on track
